DVD Presentation

Flu and Flu Vaccines

What's Coming Through That Needle

Dr. Sherri J. Tenpenny

- The low prevalence of influenza viruses in circulation
- The low number of persons per year that *actually die* from the flu
- The reality of flu shot side effects
- Flu shots and asthma
- Problematic ingredients: animal cells, detergents, polysorbate 80, formaldehyde, gelatin, mercury *and more*
- Problematic adjuvants: aluminum, AS03, MF59 and squalene
- The serious problem with latex and rubber stoppers used in the vials
- How to refuse flu shots
- The truth about Tamiflu, the medication for influenza
- How to stay well without the flu shot

SPECIAL APPEARANCE

Dr. Sherri Tenpenny

Dr. Tenpenny will attend and will be available to answer any questions you have about the flu and vaccines. This is your chance to get the answers to your questions and meet Dr. Tenpenny, so come with your questions and join us after the show!
